Profile:

Self-motivated and knowledgeable with the ability to excel in a fast-paced environment and apply new procedures quickly, adapting readily for the demands of any job. Hard working, design-oriented, artistic critical thinker with effective multi tasking, management, marketing, planning and objective selling abilities. Efficient in manufacturing and creation of a wide variety of items, with knowledge in various document interpretation such as blue prints and schematics, in addition to understanding operation and maintenance of an extensive catalog of equipment and advanced tooling.

Design, Art and Development:

- Skilled in Photoshop, Indesign, Dreamweaver, Illustrator and Adobe Creative Cloud (Windows and Mac) with a background in print and design concepts .
- Possesses exceptional fine art skills in drafting, painting, sculpting, sketching, charcoal, and digital art. Experienced in digital photography with exploration into a variety of new media.
- Proficient in the use of Microsoft Word, PowerPoint, Excel, Publisher, Outlook, and most programs in the Microsoft Office Suite (Windows and Mac).
- Adept with After Effects, Final Cut Pro, Director, and DVD Studio Pro. Extensive knowledge of story boarding, shot composition, lighting, and editing.

Management & Operations:

- Knowledge of day-to-day and strategic and logistic issues, operational requirements and management of a store and production center.
- Ability to manage employees to create a work environment that promotes innovation and peak performance; integrates high-performance expectations into everyday business practices.
- Effectively achieve and monitor long and short-term financial goals with a high degree of accountability for the generation of profit.
- Communicate, cultivate, and track customer relationships, resolve customer concerns and consistently deliver a high level of service.

Machine Operation:

- Oversees machine performance expectations, material specification compliance, operational housekeeping/cleanliness and customer acceptable finished goods.
- Possesses the ability to properly operate and maintain heavy to light weight machinery.
- Read, understand, and monitor gauges for features that utilize specialized tooling such as calipers, profilometers, and micrometers.
- Can properly understand, read, and edit CNC/CAD code to create the highest level of product for the customer.
- Utilize blueprints to set up machine operations while following all standard operation procedures and safety guidelines.
