SUMMARY STATEMENT

Visual artist seeking consideration for future workshop teaching opportunities.

Awarded the 2011 Rottler Award from York Art Association which catapulted art career. 2012 awarded best in show at YorkArts (now Creative York) to kickoff the York Arts Fest. Creating larger pieces which were chosen in 2016 to participate in a social justice driven show "Truth to Power" at the DNC in Philadelphia. Leading to even larger mural projects.

BIO

Andi is located in south central Pennsylvania. Andi studied fine art/art history and graduated with a BFA from Frostburg State University.

Andi works with a variety of mediums, including acrylics, inks, and oils. She considers her art to be abstract. Her work exhibits an ethereal sense of warmth, light, and love but also elicits the sensitive chaos found in nature. Her paintings begin with a foundation comprised of multiple layers of color and a variety of textures. Building from that background she allows intuition to guide her. Defined shapes and forms present themselves organically as the piece progresses.

Painting is her own personal solution to her own personal problem, or a question that lives inside her. She expresses herself and feels grateful if a piece resonates with someone.
